Subject: FW: FYSA on coordination re: Power Outage Ocracoke and Hatteras Islands, NC

NCC Watch,

We received a copy of your notice to COMM-ISAC Industry Representatives and Government Partners regarding access letters for entry into Dare and Hyde Counties, (Ocracoke and Hatteras Island), in the event of restrictions or curfews. Please know that North Carolina's Disaster Re-Entry Program governs access in these situations. Ours is a state-wide program operating in accordance with North Carolina General Statute 166A-19.70.

I have attached our Disaster ReEntry Fact Sheet for your perusal. Please advise your partners seeking Re-Entry Certification so that we might support supplies and personnel movement in the area and avoid duplication of effort. As the POC for Vendor Re-Entry, I am happy to assist.

Please direct your questions to the undersigned.

Good Morning COMM-ISAC Industry Representatives and Government Partners,

The NCC Watch has received notification that the power restoration may take as long as two weeks. That being said, do you anticipate any fuel issues to keep generators running? Also, let the Watch know if you need access letters to get to any affected areas. Thanks.

Very respectfully,

NCC Watch

ACTION REQUESTED:

COMM-ISAC Industry Representatives and Government Partners,

Attached is the GIS analysis conducted on power outage in Ocracoke and Hatteras Islands in NC. Please let us know if you are experiencing any impacts, or need assistance.

The latest updates from the North Carolina Office of Emergency Management is as follows:

o Dare County

- Co-ops are working to get power load reduced across the islands
- Public safety services are currently powered [no issues]
- Not seeing any shortage of fuel from providers
- No credible reports of price gouging

o Hyde County

- Won't be able to handle high demand services even with temporary generators in place
- Hesitant to allow visitors back to island without mainland power
- Water/sewer service is good, no current issues
- Tideland EMC delivering fuel daily to the island
- 1,400 gallons fuel available for VIPER tower (don't expect fuel to be an issue for the tower site)
- Not aware of price gouging occurring
- Ocracoke airport available for use to get supplies to the island [if needed]

o NC Ferry Division

- No additional LEO support needed now, but if event prolongs additional support may be needed
- As of 0730 hrs 7/28/2017 – 1,173 people and 442 vehicles evacuated

o NC DOT

- Don't anticipate weight of incoming generators to be an issue crossing Bonner Bridge, but NCEM Infrastructure will double-check with co-ops to verify weight

Ensuring Access to Emergency Supplies [Disaster Reentry Certification] N.C.G.S. 166A-19.70

What is the Ensuring Access to Emergency Supplies law?

N.C.G.S. 166A-19.70, ensures the availability of emergency supplies and utility services.

What does the Ensuring Access to Emergency Supplies law do?

N.C.G.S. 166A-19.70 mitigates the impact of hazard on communities:

- exempts essential commerce from local curfew restrictions,
- mandates a certification system for transporting essential in commerce into curfew areas, and
- empowers executive authority to seek federal waivers to address in-state petroleum disruption.

A certification system for transporting essentials in commerce, *Disaster Reentry*, is administered by the *Department of Public Safety, Division of Emergency Management*. Reentry certificates are issued, annually, to vendors, utility providers, and other personnel for access into curfew areas. The reentry certificate may be copied, distributed, and displayed, as required, for entry into curfew areas.

What is NC SPARTA?

The *State Preparedness and Resource Tracking Application (SPARTA)* is a primary component of the state's emergency management communication system. The *Department of Public Safety, Division of Emergency Management* uses *SPARTA* to manage *Disaster Reentry* certification. *SPARTA* is easy to use, flexible, and enhances real-time data management for critical decision-making.

FW: Human Services SERT partners in action during Outer Banks power outage

Subject: Human Services SERT partners in action during Outer Banks power outage

Gentlemen,

Just a quick note about some behind the scenes work done throughout the power outage event by my SERT partners.

Salvation Army- Out of their Washington, NC office, the Salvation Army was requested by the Hyde County Emergency Manager to assist citizens with crisis needs as well as canteen. The Salvation Army was quickly in place and provided food/drinks to citizens and support to local emergency officials. I have attached some pictures for your viewing pleasure.

DSS-The local DSS office was called by Hyde County, with the support of the state level DSS for helping to fill the gap of lost food for citizens who were current food stamp recipients.

Red Cross-The Red Cross will be making a donation to the local food bank on the Outer Banks to support families who still have food needs.
